NO SMOKING POLICY

Najed Al Ahliya is committed to create a healthy and safe working environment for employees, contractors and visitors. The “No Smoking Policy” is aimed at safeguarding health of employees from the dangers of active as well as passive smoking in their associated environment. It is also aimed at prevention of dangers resulting out of Fire.

In order to achieve this Najed Al Ahliya shall:

- Prohibit smoking in all buildings and facilities as stipulated by Ministry Decision 286/2008, Occupational Health and safety Requirements.

- Allow smoking only in identified designated smoking areas.

- Prohibit smoking in areas like fuel areas, chemical storage and accommodation.

- Post "No-smoking" signs at the entrances and exits of workplaces and facilities.

- Distribute the non-smoking policy to all employees and sub-contractors at each site office.

For complying with this regulation, the responsible people of the designated areas or locations are required to check and implement the necessities of the policy by creating awareness and trainings
